

network 118a, while the computers 110c and 110d reside on the second network 118b. The first network 118a enables communication amongst the computers 110a, 110b and a server computer 122a, and the second network 118b enables communication amongst the computers 110c, 110d, a server computer 122b, and a gateway computer 120. The networks 118a, 118b include any wired or wireless transmission channels having any number of servers, computers, routers, switches, bridges, etc, and may also include one or more interconnecting networks.

**REMARKS**

By way of the foregoing amendment, the application referenced in paragraph [0009] of the present application has been appropriately identified by its recently assigned U.S. Patent Application Serial No. Entry and consideration of this amendment is respectfully requested.

The Commissioner is hereby authorized to charge any appropriate fees under 37 C.F.R. §§1.16, 1.17, and 1.21 that may be required by this paper, and to credit any overpayment, to Deposit Account No. 50-1283.
